ComActivate
Enabling community action for energy sufficiency

Responds to growing levels of energy poverty in Europe, by addressing the poor energy efficiency of buildings as a major driver of energy poverty and climate change.

Ensure the energy sufficiency of vulnerable people in multi-family apartment buildings in Central and Eastern Europe by developing best practices for clean energy production, consumption and efficiency measures at neighbourhood level

**Co-funded by

Technical Development of Neighborhood Roadmaps (NESRs)

NESRS will address the complexities of renewable energies for multi-family apartment buildings, ensuring the energy needs are met while advancing poverty alleviation and climate goals are met
