

2024/10/25 9-12 (CET)

**ComActivate**  
Enabling community action for energy sufficiency

# „The Integrated Neighbourhood Rehabilitation Concept“

Online Workshop

**Co-funded by  
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor CINEA can be held responsible for them.

# Agenda

## Welcome and introduction

*Insar and IWO*

## ComActivate pilot neighbourhoods

*Representatives of pilot municipalities*

## The integrated perspective of energy efficiency

*Christoph Wessling, insar*

## Coffee-Break (10:15-10:30)

## Challenges of energy efficient refurbishment of urban areas

*Marcus Jeutner, insar*

## German experiences in energy-efficient revitalisation of urban areas

*Cora Sauré, insar*

## Next steps and Goodbye

Responds to growing levels of energy poverty in Europe, by addressing the poor energy efficiency of buildings as a major driver of energy poverty and climate change.

Ensure the energy sufficiency of vulnerable people in multi-family apartment buildings in Central and Eastern Europe by developing best practices for clean energy production, consumption and efficiency measures at neighbourhood level

**Timeline:** November 1, 2023 – October 31, 2026

**Geography:** Bulgaria, Hungary, Lithuania + regional level

**Consortium:** 10 partners + 1 associated partner

**Project lead:** Nadacia Habitat for Humanity

**Co-funded by  
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor CINEA can be held responsible for them.

EnEffect

**Co-funded by  
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor CINEA can be held responsible for them.

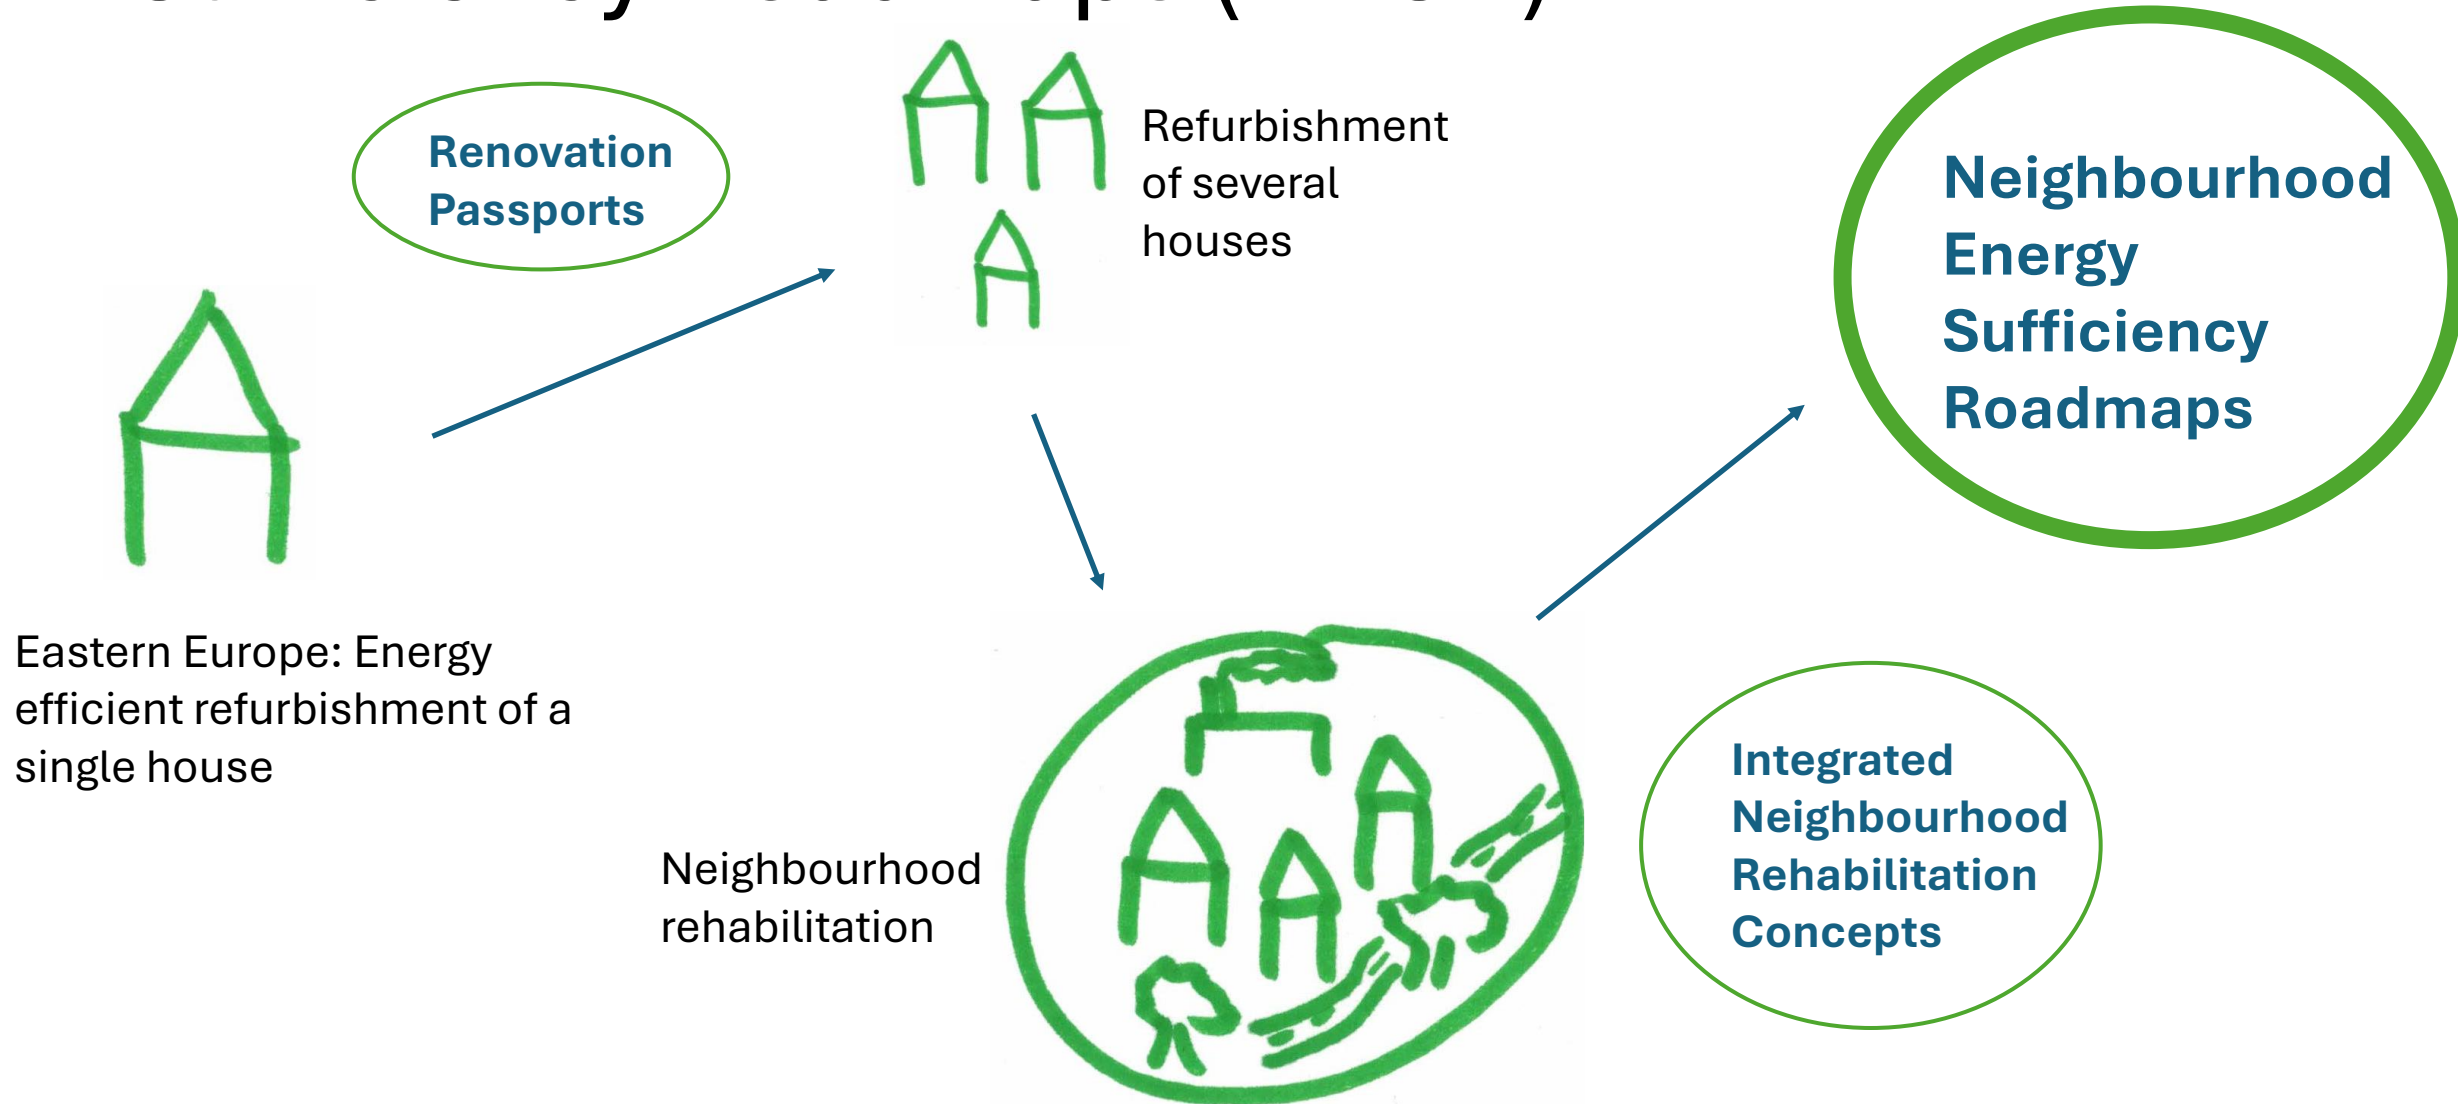

# Project partners

## Technical Development of Neighborhood Roadmaps (NESRs)

NESRs will address the complexities of renewable energies for multi-family apartment buildings, ensuring the energy needs are met while advancing poverty alleviation and climate goals are met

# Development of Neighbourhood Energy Sufficiency Roadmaps (NESR)

# ComActivate

Enabling community action for energy sufficiency
